

Year 5	Spring 1	
Prior Learning	Key Vocabulary	
Objectives:	When else will objective be covered	
<u>Number and Place Value</u> 1. Read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit 2. Round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000, 100,000 3. Solve number problems and practical problems that involve all of the above	Core Objective Core Objective Core Objective	
<u>Addition and Subtraction</u> 4. Add and subtract whole numbers with more than 4 digits, including using efficient methods (columnar addition and subtraction) 5. Add and subtract numbers mentally with increasingly large numbers 6. Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy 7. Solve addition and subtraction multi-step problems in context, deciding which operations and methods to use and why	Core Objective Core Objective Core Objective Core Objective	
<u>Multiplication and Division</u> 8. Identify multiples and factors including finding all factor pairs 9. Solve problems involving multiplication and division where larger numbers are used by decomposing them into their factors 10. Know and use the vocabulary of prime number, prime factors and composite (non-prime) numbers 11. Establish whether a number up to 100 is prime and recall prime numbers up to 19 12. Multiply numbers up to 4 digits by a one- or two-digit number using an efficient written method, including long multiplication for two digit numbers 13. Multiply and divide numbers mentally drawing upon known facts 14. Divide numbers up to 4 digits by a one-digit number using the efficient written method of short division and interpret remainders appropriately for the context 15. Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 16. Recognise and use square numbers and cube numbers, and the notation for squared ( <sup>2</sup> ) and cubed ( <sup>3</sup> ) 17. Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equal sign 18. Solve problems involving multiplication and division 19. Solve problems including scaling by simple fractions and problems involving simple rates	Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective Autumn 2, Summer 2 Core Objective Autumn 2, Summer 2	
<u>Fractions</u> 20. Recognise mixed numbers and improper fractions and convert from one form to the other 21. Add and subtract fractions with the same denominator and related fractions; write mathematical statements >1 as a mixed number (e.g. $\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = 1 \frac{1}{5}$ ) 22. Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	Summer 1, Summer 2 Summer 1, Summer 2 Summer 1, Summer 2	
<u>Decimals and Fractions</u> 23. Read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$ ) 24. Recognise and use thousandths and relate them to the tenths, hundredths and decimal equivalents 25. Read, write, order and compare numbers with up to three decimal places 26. Solve problems involving numbers up to three decimal places	Core Objective Summer 1 Core Objective Core Objective	

<p><u>Percentages, decimals and fractions</u></p> <p>27. Recognise the per cent symbol (%) and understand that per cent relates to “number of parts per hundred” and write percentages as a fraction with denominator hundred, and as a decimal fraction</p> <p>28. Solve problems which require knowing percentage and decimal equivalents of <math>\frac{1}{2}</math>, <math>\frac{1}{4}</math>, <math>\frac{1}{5}</math>, <math>\frac{2}{5}</math>, <math>\frac{4}{5}</math> and those with a denominator of a multiple of 10 or 25</p>	<p>Core Objective</p> <p>Spring 2</p>
<p><u>Measures</u></p> <p>29. Convert between different units of measure (e.g. kilometre and metre; metre and centimetre; centimetre and millimetre; kilogram and gram; litre and millilitre)</p> <p>30. Understand and use basic equivalences between metric and common imperial units express them in approximate terms</p> <p>31. Recognise and estimate volume (e.g. using <math>1\text{cm}^3</math> blocks to build cubes and cuboids) and capacity (e.g. using water)</p> <p>32. Solve problems involving addition and subtraction of units of measure (e.g. length, mass, volume, money) using decimal notation.</p>	<p>Core Objective</p> <p>Core Objective Autumn 1</p> <p>Core Objective</p>
<p><u>Data</u></p> <p>33. Solve comparison, sum and difference problems using information presented in line graph</p> <p>34. Complete, read and interpret information in tables, including timetables.</p>	<p>Core Objective</p> <p>Core Objective</p>

Year 5	Spring 2	
Prior Learning	Key Vocabulary	
Objectives:	When else will objective be covered	
<u>Number and Place Value</u> 1. Read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit 2. Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers through zero 3. Round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000, 100,000 4. Solve number problems and practical problems that involve all of the above 5. Read Roman numerals to 1000 (M) and recognise years written in Roman numerals	Core Objective Autumn 2, Summer1 Core Objective Core Objective	
<u>Addition and Subtraction</u> 6. Add and subtract whole numbers with more than 4 digits, including using efficient methods (columnar addition and subtraction) 7. Add and subtract numbers mentally with increasingly large numbers 8. Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy 9. Solve addition and subtraction multi-step problems in context, deciding which operations and methods to use and why	Core Objective Core Objective Core Objective Core Objective	
<u>Multiplication and Division</u> 10. Identify multiples and factors including finding all factor pairs 11. Solve problems involving multiplication and division where larger numbers are used by decomposing them into their factors 12. Know and use the vocabulary of prime number, prime factors and composite (non-prime) numbers 13. Establish whether a number up to 100 is prime and recall prime numbers up to 19 14. Multiply numbers up to 4 digits by a one- or two-digit number using an efficient written method, including long multiplication for two digit numbers 15. Multiply and divide numbers mentally drawing upon known facts 16. Divide numbers up to 4 digits by a one-digit number using the efficient written method of short division and interpret remainders appropriately for the context 17. Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 18. Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equal sign 19. Solve problems involving multiplication and division	Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective Core Objective	
<u>Fractions</u> 20. Compare and order fractions whose denominators are all multiples of the same numbers	Autumn 1, Autumn 2	
<u>Decimals and Fractions</u> 21. Read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$ ) 22. Read, write, order and compare numbers with up to three decimal places 23. Solve problems involving numbers up to three decimal places	Core Objective Core Objective Core Objective	
<u>Percentages, decimals and fractions</u> 24. Recognise the per cent symbol (%) and understand that per cent relates to “number of parts per hundred” and write percentages as a fraction with denominator hundred, and as a decimal fraction 25. Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$ , $\frac{1}{4}$ , $\frac{1}{5}$ , $\frac{2}{5}$ , $\frac{4}{5}$ and those with a denominator of a	Core Objective Spring 1	

multiple of 10 or 25	
<u>Measures</u> 26. Convert between different units of measure (e.g. kilometre and metre; metre and centimetre; centimetre and millimetre; kilogram and gram; litre and millilitre) 27. Understand and use basic equivalences between metric and common imperial units express them in approximate terms 28. Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres 29. Calculate and compare the area of squares and rectangles including using standard units, square centimetre (cm <sup>2</sup> ) and squared metres (m <sup>2</sup> ) and estimate the area of irregular shapes 30. Solve problems involving addition and subtraction of units of measure (e.g. length, mass, volume, money) using decimal notation.	Core Objective  Core Objective Autumn 2 Autumn 2  Core Objective
<u>Geometry : properties of shapes</u> 31. Know angles are measured in degrees; estimate and measure them and draw a given angle, writing it size in degrees (°) 32. Identify multiples of 90° 33. Identify angles at a point on a straight line and ½ a turn (total 180°) 34. Identify angles at a point and one whole turn (total 360°) 35. Identify reflex angles and compare different angles 36. Draw a shape using given dimensions and angles	Summer 2 Summer 2 Summer 2 Summer 2 Summer 2 Summer 2
<u>Data</u> 37. Solve comparison, sum and difference problems using information presented in line graph 38. Complete, read and interpret information in tables, including timetables.	Core Objective Core Objective
