

Dear friend,

I am going to tell you a bit about Junior School  
I hope you are excited to join a new place I  
can't wait to see you.

One of the really fun things you will do in year  
3 is to go on a school trip to Cambridge. When  
you are there you get to make a hinge

out of hot metal and we get to hammer it into  
a shape of a hinge we also make glues by crutch  
glues by hand and also by using a machine we then use  
the glues to make bread. It was great fun! Everyday  
at school we have break and lunch and this is where  
we get to play with our friends. Also at lunch time  
you can play on the equipment but you have to  
have adult supervision.

You are going to love your new school. I  
wonder which teacher you are going to get?  
They are all lovely.

From  
Elliot
