 **FIFA 19 (2018) Review** Unit 1 Day 1

What parents need to know
Parents need to know that *FIFA 19* is essentially a soccer simulation. It doesn't contain anything inappropriate for young eyes or ears.

- Positive messages
- Positive role models
- Ease of play

What can children learn from this game?
Kids can learn the rules to soccer, how to follow codes of conduct and what it takes to devise a winning strategy in a soccer game. To a lesser extent, *FIFA 19* also teaches kids how to work with others to reach a goal. By watching how the pros play and experiencing which moves are legal and which are not, kids can come away with a better understanding of how to play soccer.

 **What's it about?**
As with previous versions of this soccer game, *FIFA 19* is a simulation that virtually recreates the world's most popular sport. Gamers can select their favourite team, take control over all the players and vie for supremacy on the pitch. This year's game offers multiple solo and multiplayer modes (both online and in front of the same TV), many platforms to play on and improvements to artificial intelligence (A.I.), dribbling, ball control and more. *FIFA 19* houses more than 500 officially licensed clubs and roughly 15,000 players.

Is it any good?
FIFA 19 boasts gorgeous and intense action on the pitch compared to its predecessors - thanks, in part, to high-definition player models, lifelike animation and authentic ball and player physics.

Pros

- Visually, it is brilliant
- Nine new game modes available in this version
- Extra new features include a double press goal shooting option, making goals fizz like a rocket
- The music and graphics are superb, especially the stadiums and detail on the players such as beads of sweat and rustling shirts on windy days

Cons

- *FIFA 19*'s free-flowing football can be tricky to master
- Tackle outcomes are more realistic but mean you often come out as the underdog
- The Journey story section of the game is a little disappointing and seems uninspired.

I think the person writing the report likes the game. There are a lot of positives and it encourages people to play.

Contains information and facts – the **FIFA report** has lots of facts about the game.

Organised into sections with headings and subheadings – yes sub-headings in **BOLD**

Has a clear main title – yes the title is in bold and bigger text.

Begins with an introduction – Yes it begins with an introduction for parents who might be interested in buying the game for their children

Present tense mainly (Describes how it is now) - YES

Includes technical vocabulary – Yes talks about the features of the game e.g. multiplayer mode.

Suggested CBeebies games to review

- Go Jettlers Global Glitch Game
 - Dangermouse Dash
 - **Hop to it with Peter Rabbit**
 - My World Kitchen Game
- The Furchester Hotel: A Helping Hand
- Get building (Nina and the Neurons)
 - Ruff Ruff, Tweet and Dave
 - Pat's parcel sort

Game Report: Hop to it with Peter Rabbit

By Alana Martin 3GF

Who is the game for? (Audience)

The hop to it Peter Rabbit game is for young children and viewers of Cbeebies – Like Baby Annabel.

What is the aim of the game?

The aim of the game is for Peter, Lily and Benjamin to collect food for Cotton-tail's party.

How good is it?

I think the games is really good because it encourages little children to try new things. The characters are well know and are suitable for children. I wanted to help Peter, Lilly and

Benjamin collect the food so that Cotton-tail could have birthday party.

How is it played? (Rules)

The game is very simple to play. You need to use the space bar to jump over things in the way.

The game levels start at the Lake, where Peter and his friends have to collect dandelions whilst being chased by a shrew. The next level is Snowy Hills Farm, here Peter and his friends collect acorns and are chased by Old Brown. In the Undergrowth level, Peter and his friends have to collect blackberries and are chased by Sammy Whiskers. For the Hill Top Farm level, Peter and his friends collect apples and are chased by Mr Todd. In the Fields level, Peter and his friends are collecting strawberries and are chased by Tommy Brock. In the Woods, Peter and his friends have to collect berries and are chased by Mr Todd. In the Forest, Peter and his friends collect acorns and are chased by Old Brown. In Mr McGregor's Garden, Peter and his friends collect radishes whilst being chased by Mr McGregor's cat.

What skills are needed to play?

Good levels of attention are needed, try not to get distracted. You have to be co-ordinated to press the space bar at the right time to avoid the obstacle.
