

Valley of the Kings

The valley of the kings was made around 1500BC by a lot of Egyptian people. It was very hard and people sometimes died from doing it! They built this for somewhere to put the tombs of the pharaohs. It is 150 metres long and has at least 63 tombs.

The Valley of the Kings has been visited by people all over the world. people love it! The most famous pharaoh is Tutankhamen!!!! His coffin is worth \$28 million! He was buried inside there in November 1922.

Did you know?

Tuthmosis I was the first pharaoh to be buried in the Valley of the kings.

This is Ramses II coffin.

He had the biggest western bank of the Nile coffin in the Valley of the Kings. near the ancient city of Thebes.

It is located on the

Thebes.
